and population.				ана роригацон.

TYBA	Demography Advanced Micro economics –III (VII)	IV	To educate the learners about the issues related to demographic techniques and basic sources of Demographic data in the Indian economy. To educate the learners about the various aspects of the population policy and the study of its social characteristics. To provide sound understanding in
			Microeconomictheorywithspecialemphasisont hestudyofImperfectcompetition, General Equilibrium and Welfare Economics.
	Advanced Micro economics –III (XIII)	VI	1.To introduce the learners to formal modelling of Macroeconomic theory with analytic tools with focus on goods market with fixed exchange rate, the money market, uncovered interest rate parity, benefits and Costs of fixed and flexible exchange rates.
	Economics of Growth And Development: VIII	V	1.To enable learners to understand the concepts Related to economic growth and development. 2.Tohelplearners aware of the pressing problems on The path of development such as inequality, poverty and technical aspects of growth. 3. To help learners familiarize with the policy options To eradicate poverty and inequality. 4. To enable learners to get an over view of structural Issues in development process.
	Economics of Agriculture and Co-operation- I IX	V	1.To study the significance of agriculture in economic development. 2.To provide information to students about various modern technology and ideas adopted in the agriculture sector.
	Economics of Agriculture and Co-operation- II XV	VI	1.Students will obtain information regarding various agricultural issues in India and remedies for it. 2.Students also can get information about cooperative movement in India and its performance and role in rural development. 3.Making awareness about self-employment through various local business like agrotourism, travel agents, horticulture, floriculture, fishery and animal husbandry.

<u> </u>	 		
	Research Methodology: Paper X	V	This paper is designed with the view to introduce the concepts, principles and methods of Economic research based on qualitative and quantitative data. Toenable the learners to get an insight into the Applications of modern analytical tools and techniques Related economic decision making. To give the learners an opportunity to learn how to Collect and analyze primary and secondary data. 4.To strengthen the knowledge related to computer applications to research analysis
	RESEARCHMETHODOLOGY:PAPERXVI	VI	1.To strengthen the critical thinking and listening Skills in conducting economic research 2. To device research out comes in an impeccable way.
	Environmental Economics: Paper XI	V	1.Tohelpthelearners understand the relation between Environment and economic aspect. 2. To make the learners aware of economic principles applied to environmental questions, their management and Its valuation of environmental improvements. 3. To help the learners understand economy - Environment linkages, environmental valuation methods, process and its merits - demerits, tools for environmental protection and role of International institutions.
	Environmental Economics: Paper XI	VI	1.To demonstrate an awareness of their role in global economic environment and local environment issues. 2.To create awareness among the students about environmental conservation and policy implications by the Government.
	History of Economic Thought. Paper XII	V	To get the learners an insight into the contribution of the various economists starting from classical period. To enable the learners get acquainted with the contributions of the Noble Laureates in Economics of the present period.
	History of Economic Thought. Paper XVIII	VI	The students will be able to know the economic thoughts of the celebrated economists starting from the classical period. Also, they will be able to study the noble laureates of recent period.

Geography	Fy B com	Environmental Studies	I	1.To understand functional links between
				Environmental human beings.
				To create an awareness of different
				environmental Aspects and issues.
				3.To acquire the knowledge of earth's ability
				to meet needs of present generations
				to fiect fields of present generations
	FYBA	Geography	I	To acquire the knowledge of internal
				structure of The earth.
				2. To build the knowledge about the impacts
				of internal and external forces of the earth on
				the surface Of the earth
				3. To enhance the knowledge about
				applicability of the subjects.
		Geography (Human Geography)	II	Tobuildthe knowledge of meaning and
				significance Of human geography
				2.To familiarize settlement patterns
		1		-
				3.To acquire knowledge of physical and social
				Environment of human being
			-	And thus to broaden the outlook
	SYBA	Geography II(Introduction to Climatology)	III	To acquire the knowledge of different
				climatic Elements and their impacts on the
				earth surface. 2. To develop an understanding of how climatic
				factors Have influenced life on earth.
				To create an awareness about the
				responsibility of human beings towards
				Nature.
	SYBA	Geography III (Geography Of India)	III	To build the knowledge about physical
	515.1			features of India
				To develop an understanding of availability,
				use and Need of conservation of natural
				resources.
				To develop cosmopolitan and
				internationalist outlook.
	SYBA	Geography II(Introduction to Oceanography)	IV	1. To build the knowledge of features of Ocean
				Floor And their significance.
				2. To develop their understanding about
				movement of Ocean water and their impact.
				3. To create an awareness regarding the
				result ant loss of water resources especially
				oceans due to human activities and necessary
		Constant West of the Constant	17.	measures to be taken.
		Geography II(Agricultural geography of India)	IV	TointroduceAgricultural geography and
				understand Its significance
				To enhance the knowledge of Indian Agriculture.
				To understand the significance of thematic
				map.
	TYBA	Geography IV (Geography Of Settlements)	V	1.To familiarize the learners with the
	IIDA	orography or octionions)	1	theoretical Foundations and recent trends in this
				Branch of Geography.
				Z.To provide an understanding of
				evolutionary, morphological and,
				functional attribute so furban

			Places at different scales.
			To sensitize the learners about
			contemporary rural/urban problems.
TYBA	Geography V(Population Geography)	V	1.To explain the geographical approach to the
			study
			Of population.
			2. Tohighlightthe analysis of broad spatial
			patterns of world population
			Examining population resource relationship and
			Population problems.
			To develop the understanding of policies
			of developed and less developed countries of
			the world.
TYBA	Geography VI (Tools and Techniques in Geography for Spatial	V	To create awareness of the various
TIDA	Analysis-I(Practical))	*	cartographic techniques available for graphic
	Analysis-i(11actical))		representation of relief, population,
			agriculture, industrial and transport data, the
			steps of construction of the techniques-their
			Merits and demerits.
			2. To help the learners develop manual skills of
			drawing maps based on some of the above-
			mentioned data.
			3. It Introduced the learners with SOIT opo
			sheets and to acquire the Knowledge of Top
			sheet Reading/Interpretation.
			To train the learners in elementary
			statistics as an essential part of geography
			Learners identify the causes of regional
			disparities in development, perspectives and
			policy imperatives.
TYBA	Geography IV(Environmental Geography)	VI	To appraise the learners with the inter
			relationship between man and the
			environment in which he lives and also his
			linkages with other organisms.
			2. To make the learners aware about the
			importance of conserving biodiversity to
			maintain ecological balance.
			3. To create environmental awareness
			amongst the learners.
			4. It acquainted learners with fundamental
			concepts of Environment.
			5. Developed understanding various
			Environmental phenomena.
			6. ItidentifiescausesandeffectsofEnvironme
			ntalPollutionandemergingEnvironmentalIs
			sues.
			7. ItacquirestheknowledgeofConservatio
			nofResourcesandvariousEnvironmental
			Acts.
TYBA	Geography V(Geography Of Tourism And Recreation)	VI	1. To give an overview of tourism industry and
			various organizations
			2. To understand the conceptual meaning
			and differentiation between Travel
			agency and Tour operation.
			3. To understand formalities and

	T	I	1	de consentation mandadas automaticas
				documentation needed to set up these units. 4. To give information of tourist places of national and international importance and to help learners to know the background elements of tourism resources. 5. To expose the learners about the Tourism policy of India and ofafew tourism states of the country 6. To prepare the learners to enter a travel agency where he will be required to be well-versed with the modalities. 7. To attain the basic knowledge of marketing principles, operation techniques of tourism marketing, study of suitability of alternative promotional approaches to and formulate marketing plans and promotional approaches to tourism and other related organizations.
	TYBA	Geography VI(Tools And Techniques In Geography For Spatial Analysis-II(Practical))	VI	1. To provide knowledge of statistical techniques and their application in geography. 2. To train the learners to apply these techniques and methods to the analysis of the geographic problems. 3. To acquaint the learners with the importance of field works one of the methodologies in Geography 4. To sensitize learners about pre–field work preparations, conduct of the field work, post–field work based and the writing of afield work report.
English	FYBA	Communication Skills in English	I	C.O.1 Students understood language proficiency by providing adequate exposure to reading and writing skills C.O.2 Students were oriented towards the
				functional aspects of language
		Communication Skills in English	II	1. C.O.1 Students improved listening, speaking, writing skills of the students. Students understood the process of communication and its effect on giving and receiving information

मराठी भाषा विभाग	प्रथम वर्ष कला शाखा	मराठी ऐछिक (मराठी भाषा १)	सत्र १	नाटक या साहित्य प्रकराचा अभ्यास (दोन नेमलेल्या नाट्यकृती)
				नाटक हा साहित्य प्रकार समजून घेऊन नाट्यक्षेत्रात उपलब्ध असलेल्या विविध व्यवसायिक संधींसाठी विद्यार्थ्याच्या व्यक्तिमत्वाची तयारी करण्यासाठी उपयुक्त आहे. अभिनय कला, संहितालेखन, जाहिरात, संगीत, नेपथ्य इत्यादी क्षेत्रात उपलब्ध संधी साठी विद्यार्थी तयार होतो.
			सत्र २	प्रवास वर्णन या साहित्यप्रकारचा अभ्यास (नेमलेली
				दोन प्रवासवर्णने) प्रवास वर्णनाचा अभ्यासातून विविध ऐतिहासिक,
				सांस्कृतिक वारसा असणाऱ्या पर्यटन स्थळांची माहिती मिळते. त्यातून पर्यटनाच्या व्यवसायाची संधी उपलब्ध होतात. त्याचप्रमाणे प्रवासाच्या माध्यमातून पर्यटनाला चालना मिळते. नेमलेल्या प्रवासवर्णनाचा साहित्यकृती दोन देशातील पर्यटन स्थळे व ऐतिहासिक व सांस्कृतिक वारशाशी संबंधित असल्याने विद्यार्थ्यांना देश विदेशांची माहिती मिळते त्यातून विद्यार्थ्यांचा जगाकडे
				बघण्याचा दृष्टीकोन व्यापक होतो.
	प्रथम वर्ष कला शाखा	मराठी अनिवार्य (मराठी भाषा २)	सत्र १	 अ) निवडक कथांचा अभ्यास कथांच्या अभ्यासातून दलित, ग्रामीण,शहरी, मानसशास्त्रीय जाणिवांचा अभ्यास झाल्यामुळे विद्यार्थ्यांना मराठी भाषेच्या प्रादेशिक पैलूंची ओळख होऊन त्यांची भाषा
		_		आणखी संपन्न होते. व) विद्यार्थ्याला मराठी भाषेचे लेखनाचे नियम व विरामचिन्हांची चांगली ओळख होते व त्यातून
		T. Control of the Con	1	
				त्याचे लेखन कौशल्य सुधारते. बातमी लेखन, वृतांत लेखन आणि भाषांतराच्या सरावामुळे दृक्श्राव्य माध्यम आणि वर्तमानपत्रातील आणि भाषांतराच्या व्यवसायिक संधीसाठी विद्यार्थांची तयारी होते. तसेच विविध व्यवसाय संधींसाठी चांगले अर्जलेखन करणे आणि सारांश पात्र तयार

			करणे या बाबतीती विद्यार्थी पारंगत होतो.
		सत्र २	अ) मराठी भाषेतील निवडक कवितांची अभ्यास
			आधुनिक मराठी साहित्यातील नवसाहित्यानंतरच्या निवडक आधुनिक मराठी कवितांची अभ्यासातून
			विद्यार्थ्यांच्या काव्यविषयक जाणीवा प्रगल्भ होतात
			ब) व्यवहारिक मराठी दैनंदिन आणि व्यवहारी
			कामकाजासाठी या घटकांचा अभ्यास विद्यार्थ्यांना
		1	उपयुक्त ठरतो.
	मराठी अभ्यासपत्रिका क्रमांक – २	सत्र ३	कादंबरी या साहित्यप्रकाराचा अभ्यास (दोन
कला शाखा			नेमलेल्या कादंबऱ्या) कादंबरीया साहित्यप्रकारचे अभ्यासातून मराठीतील कादंबरी वाड्ययाचा
			परिचय होतो. त्यातून चित्रपट, मालिका यासाठी
			पटकथा- संवाद लेखन या दृष्टीने व्यावसायिक संधी
			त्यांना अधिक सक्षमपणे विद्यार्थी सामोरे जाऊ
			शकतात. तसेच साहित्यकृतीचे माध्यांतर (कादंबरीचे
			नाट्यरुपांतर किंवा कादंबरीच्या आधारे चित्रपट निर्मिती) याचा विद्यार्थ्यांना परिचय होतो.
		सत्र ४	आत्मकथन या साहित्यप्रकाराचा अभ्यास (दोन
		44	नेमलेली आत्मकथने
		1	सार्वजनिक जीवनात यशस्वी ठरलेल्या व
			मोठमोठ्या हुद्यांवर पोहोचलेल्या व्यक्तींच्या
			आत्मचरित्रातून विद्यार्थ्यांना प्रेरणा मिळते व
			आयुष्यात स्वतःला घडवण्याची जिद्द त्यांच्यात निर्माण होते.
द्वितीय वर्ष	मराठी अभ्यासपत्रिका क्रमांक – ३	सत्र ३	भाषा आणि भाषा अभ्यास
	Free action of the matter of	1	
कला			mad and and and
			मानवी भाषेचे स्वरूप विध्यार्थानी अभ्यासल्यामुळे भाषिक आणि भाषेतर संप्रेषण अधिक प्रगल्भ
			होण्यास मदत होते. आणि बोलल्या जाणाऱ्या
			भाषेचे विविध पैलू विद्यार्थ्याला कळतात.
		सत्र ४	मराठीच्या बोलीचा अभ्यास आगरी बोली या
			अभ्यास पत्रिकेतून विविध बोलीचा अभ्यास
			असल्यामुळे विद्यार्थांच्या प्रादेशिक जाणीव प्रगल्भ होण्यास मदत होते.
तृतीय वर्ष	अभ्यासपत्रिका क्रमांक ४ – मध्ययुगीन मराठी वाड्ययाचा इतिहास	सत्र ५	मराठी साहित्याची सुरुवात व महानुभाव वाङ्मय
कला शाखा		, ,	वारकरी पंथीयांचे वाङ्मय आणि पंडिती काव्याचा
			अभ्यास झाल्यामुळे विध्यार्थ्यांच्या जाणीव प्रगल्भ
			होऊन मध्ययुगीन् महाराष्ट्राची तोंड ओळख
		TT 6	होण्यास मदत होते. शाहिरी वाड्ययामध्ये लावणी, पोवाडे या
		सत्र ६	लोककलाप्रकारांचा परिचय विद्यार्थ्याला होतो
			आणि आधुनिक काळातील या लोककलांचा
			रंगमंचीय आविष्कारसाठी कसा वापर केला जातो
			याची विद्यार्थ्यांना माहिती मिळते.
	अभ्यासपत्रिका क्रमांक ५–भारतीय व पाश्चात्य साहित्यशास्त्र	सत्र ५	भारतीय साहित्यशास्त्र परंपरेचा विशेषतः संस्कृत
			साहित्यशास्त्राचा विद्यार्थ्यांना परिचय होतो आणि त्यातून साहित्यविषयक जाणीव प्रगल्भ होतात.
		सत्र ६	प्राचीन ग्रीक साहित्य शास्त्राच्या विविध
			विचारवंतानी मांडलेल्या मतांचा परिचय होतो
			त्यातून साहित्यविषयक पाश्चात्य दृष्टीकोन प्रगल्भ
			होतो.
	अभ्यासपत्रिका क्रमांक ६ – साहित्य आणि समाज	सत्र ५	साहित्य, समाज, संस्कृती या संकल्पना व त्यांचा
			परस्पर संबंधांचे स्वरूप अभ्यास असल्यामुळे
			विद्यार्थ्यांच्या समाज जाणीव प्रगल्भ होतात तेन
			मार्क्स यांचे सिद्धांत मानवतावाद, मार्क्सवाद,
			स्त्रीवाद, आंबेडकरवाद, या विचारप्रणालीशी विद्यार्थ्याचे तोंड ओळख झाल्यामुळे सामाजिक
			वांधिलकीचे भान निर्माण होण्यास मदत होते.
			स्त्रीवादी कादंबरी 'भिन्न' अभ्यासल्यामुळे
			स्त्रियांविषयी आदर, त्यांना समजून घेण्याची वृत्ती
			वाढण्यास मदत होते. 'दृश्य नसलेल्या दृश्यात' या
			महानगरीय जाणीवेच्या कविता अभ्यासल्यामुळे
			महानगरीय जीवनाची ओळख होण्यास मदत होते.
		सत्र ६	महाराष्ट्रातील सामाजिक स्थित्यंतरे आणि मराठी साहित्य यांचा अभ्यास झाल्यामुळे विद्यार्थ्यांच्या
			समाजाबद्दलच्या जाणीवा अधिक समृध्द होतात
			ग्रामीण साहित्य, दलित साहित्य यांच्या
			अभ्यासामुळे विद्यार्थ्यांना तळागाळातील समाज
			जीवन कळण्यास मदत होते.
	अभ्यासपत्रिका क्रमांक ७– भाषाविज्ञान आणि मराठी व्याकरण	सत्र ५	भाषाविज्ञान आणि मराठी व्याकरणाचा अभ्यास
			करून भाषाशास्त्राच्या विविध शाखांचा अभ्यास
			केल्यामुळे विद्यार्थ्यांचे भाषाशास्त्रीय ज्ञान वाढवण्यास मदत होते.
		सत्र ६	शब्दांचे वर्गीकरण, विकरण, शब्द सिद्धी, प्रयोग
			विचार या घटकांच्या अभ्यासामुळे व्याकरण दृष्ट्या
•			

	1		1		I.—
		अभ्यासपत्रिका क्रमांक ८ – आधुनिक मराठी साहित्य	सत्र	ч	भाषा समृध्द होण्यास मदत होते. आधुनिक, आधुनिकता, आधुनिकतावाद यांच्या अभ्यास केल्यामुळे विशिष्ट विचारप्रणालींचा विद्यार्थ्यांचा परिचय होऊन सामाजिक जाणीव प्रगल्भ होतात. आधुनिक मराठी कथांचा अभ्यास केल्यामुळे प्रसारमाध्यमातील व्यवसायिक संधींना विद्यार्थी सामोरे जाऊ शकतात.
			सत्र	Ę	विविध विचार प्रवाहातील काव्याचा अभ्यास केल्यामुळे सामाजिक जाणीव प्रगल्भ होऊन माणसांच्या जगण्याचे विविध स्तर समजण्यास मदत होते तसेच किरवंत या नाटकाचा अभ्यास केल्यामुळे समाज रचनेची उतरंड समजण्यास मदत होते.
		अभ्यासपत्रिका क्रमांक ९– व्यवसायाभिमुख मराठी	सत्र	ч	भाषांतर, अनुवाद, रुपांतर यांचा अभ्यास केल्यामुळे विविध क्षेत्रातील भाषांतराच्या संधी उपलब्ध होतात.
			सत्र	US.	मुलाखत या प्रकारच्या अभ्यासामुळे दृक्श्राव्य माध्यमातील अनेक व्यावसायिक संधींचा विद्यार्थ्यांना उपलब्ध होतात तसेच माझे विद्यापीठ आणि इतर पुस्तकांचे परीक्षण विद्यार्थ्यांनी केल्यामुळे वर्तमानपत्रातील लेखनाची पूर्वतयारी होते.
Mathematics, Statistics and	F.Y. B.Com	Mathematical and statistical techniques-I		I	To improve in quantitative aptitude required for various competitive
					T •
Computers					examinations 2. To create base for financial analysis required for finance related courses 3. To develop an ability of making appropriate decisions by enumerating feasible and viable alternatives
		Mathematical and statistical techniques-I		II	To create base for financial analysis required for finance related courses To determine the nature and strength of
					relationship between two variables 3. To understand concepts of time series and its applications in different areas 4. To study economic data reflecting price or quantity compared with a standard or base value
	F.Y.B.Sc	Mathematics I (Calculus I)		I	Knowledge of number system, WOP etc. bounded set Limit and continuity.
		Mathematics II (Algebra)		I	Knows demorgan laws car Tesian product cardinality of set. integers equivalence relation
		Mathematics I (calculus II)		II	Understand convergent and divergent series solve examples of indeterminate forms,.
		Mathematics II (linear Algebra)		II	Understand matrices and its property. identities such As $(AB)^{t} = B^{t}A^{t}$, $(AB)^{-1} = B^{-1}A^{-1}$. Know vector space and solve problem on it.
	S.Y.B.Sc	Mathematics I (Calculus III)	1	Ш	Student understand n , distance between two points, open ball in R $^{\rm n}$ definition of an open subset of R n , neighbourhood of a point in R n , sequences in R n , convergence of sequences- these concepts should be specifically discussed for n = 3 and n = 3. Directional derivatives and partial derivatives of scalar fields. Mean value theorem for derivatives of scalar field
		Mathematics II (Algebra III)		III	Student has knowledge of matrix units, row operations, elementary matrices, elementary matrices are invertible and an invertible matrix is a product of elementary matrices Has knowledge Linear dependence and independence of vectors in R n using determinants,
		Mathematics III (Discrete Maths)]	Ш	Knows permutations recurrence relation. homogenous

				and non homogenous system of eqn. norm of a vector etc Knows permutation and properties as odd even Permutation. Knows advance counting technique
		Mathematics I (CALCULUS IV)	IV	Knows remain integration its properties, indefinite and proper integral, beta and gamma function
		Mathematics II (ALGEBRA IV)	IV	Group theory abelian group Klein 4 group etc, cyclic group and Lagrange theorem
		Mathematics III (ORDINARY DIFFERENTIAL EQUATIONS)	IV	Knowledge og ode second order differential equation, system of ODE
	F. Y. B.Sc.	Chemistry I	I	Detail knowledge of Instruments, reactions and ionic, covalent bonding with respect to MOT, VBT.
		Chemistry II	I	Detail Study of stereochemistry with respect to optical and geometrical isomerism.
Chemistry		Chemistry I	II	Basic concept of thermodynamic and thermochemistry.
		Chemistry II	II	Study nomenclature of organic compound.
	S.Y.B.Sc	Chemistry I	Ш	Basic knowledge of electrolytic conductivity,transportnumber,surface tension and surface chemistry.
		Chemistry II	III	Study of stereochemistry with respect to conformational isomerism, study of carboxylic acid, cyanide aldehyde and ketone and their reaction.
		Chemistry III (Analytical chemistry)	III	Type of errors,accuracy,precision,chromatography,titrm etry.
		Chemistry I	IV	Basic concept of chemical kinetics,polymer,potentiometer.
		Chemistry II	IV	Detail study of stereochemistry with respect to geometrical isomerism and study of aromatic compound.
		Chemistry III (Analytical chemistry)	IV	Detail study of gravimetric, inorganic qualitative analysis and conduct metric titration.
	T.Y.B.Sc	Physical Chemistry	V	Basic study of electrochemistry, quantum chemistry, electrochemical cell and their application.
		Inorganic Chemistry	V	Study of molecular symmetry and chemical bonding, solid state chemistry and inner transition element.
		Organic Chemistry	V	Details of mechanism of organic reaction and photochemistry and also spectroscopy and IUPAC nomenclature.
		Analytical Chemistry	V	Introduction of quality concept, classical method of analysis and optical methods.
		Physical Chemistry	VI	Basic study of renewable energy resources and basic quantum chemistry and also nuclear magnetic resonance spectroscopy.
		Inorganic Chemistry	VI	Study of metal ligand bond, organometallic chemistry and bio inorganic chemistry.
		Organic Chemistry	VI	Details stereo chemistry, amino acid proteins, nucleic acid and catalyst and reagent.
		Analytical Chemistry	VI	Study of electroanalytical technique and food, cosmetic analysis. Analytical method validation.
Physics	F. Y. B.Sc.	Mathematical physics	I/II	to understand mathematical concepts related to basic physics and apply them in physical situations.
	S.Y.B.Sc	Mechanics and thermodynamics	III	i) Understand the concepts of mechanics & properties of matter & to apply them to problems. ii) Comprehend the basic concepts of thermodynamics & its applications in physical situation
		Vector calculus ,Analog Electronics	Ш	1) Understand the basic concepts of mathematical physics and their applications in physical situations. 2) Understand the basic laws of electrodynamics and be able to perform calculations using them. 3) Understand the basics of transistor biasing, operational amplifiers, their applications

	Applied Physics -I	III	Students will be exposed to contextual real life situations. The learner will understand the scope of the subject in Industry & Research
	Optics and Digital Electronics	IV	Understand the diffraction and polarization processes and application in physical situation use IC 555 time for various timing application Understand working of digital circuits. Understand resolving power concept.
	Quantum Mechanics	IV	Understand the postulates of quantum mechanics and to understand its importance in explaining significant phenomena in Physics. Demonstrate quantitative problem solving skills in all the topics covered.
	Applied Physics-II	IV	Students will be exposed to contextual real life situations. The learner will understand the scope of the subject in Industry & Research
T.Y.B.Sc	Mathematical Methods in Physics	V	Understand the basics of crystallography, Electrical properties of metals, Band Theory of solids, demarcation among the types of materials, Semiconductor Physics and Superconductivity. 2. Understand the basic concepts of Fermi probability distribution
			function, Density of states, conduction in semiconductors and BCS theory of superconductivity. 3. Demonstrate quantitative problem solving skills in all the topics covered
	Solid State Physics	V	1. Understand the basics of crystallography, Electrical properties of metals, Band Theory of solids, demarcation among the types of materials, Semiconductor Physics and Superconductivity. 2. Understand the basic concepts of Fermi probability distribution function, Density of states, conduction in semiconductors and BCS theory of superconductivity. 3. Demonstrate quantitative problem solving skills in all the topics covered
	Atomic Physics	V	1.Upon successful completion of this course, the student will understand 2. the application of quantum mechanics in atomic physics 3.the importance of electron spin, symmetric and antisymmetric wave functions and vector atom model
	Electrodynamics	V	Understand the basic concepts of timing pulse generation and regulated power supplies Understand the basic electronic circuits for universal logic building blocks and basic concepts of digital communication. Develop quantitative problem solving skills in all the topics covered
	Classical Mechanics	VI	This course will introduce the students to different aspects of classical mechanics. They would understand the kinds of motions that can occur under a central potential and their applications to planetary orbits. The students should also appreciate the effect of moving coordinate system, rectilinear as well as rotating.
	Electronics	VI	Understand the basics of semiconductor devices and their applications. 2. Understand the basic concepts of operational amplifier: its prototype and applications as instrumentation amplifier, active filters, comparators and waveform generation.
	Nuclear Physics	VI	Upon successful completion of this course, the student will be able to understand the fundamental principles and concepts governing classical nuclear and particle physics and have a knowledge of their applications interactions of ionizing radiation with matter the key techniques for particle accelerators the physical processes involved in nuclear power generation.

		Special Theory of Relativity	VI	Understand the significance of Michelson Morley experiment and failure of the existing theories to explain the null result 2. Understand the importance of postulates of special relativity, Lorentz transformation equations and how it changed the way we look at space and time, Absolutism and relativity, Common sense versus Einstein concept of Space and time. 3. Understand the transformation equations for: Space and time, velocity, frequency, mass, momentum, force, Energy, Charge and current density, electric and magnetic fields.
Zoology	F. Y. B.Sc.	Wonders Of Animal World, Biodiversity And Its Conservation	I	CO1. The curiosity will be ignited in the minds of learners to know more about the fascinating world ofanimals which would enhance their interest and love for the subject of Zoology. CO2. Learners would appreciate treasure of biodiversity its importance and would contribute their best forits conservation. CO3. Minds of learners would be impulse to think differently and would be encourage ipso facto to their original crude ideas from the field of biological science
		Laboratory Safety And Units Of Measurement	I	CO1. Learners would work safely in the laboratory and avoid and avoid occurance of accidents which willboost their scholastic performance and economy in the use of materials and chemicals during practical
				session CO2. Learners would understand recent advance in the subject and their application for betterment ofmankind and that the young minds would be turns to think out of the box. CO3. Learner will be skilled to select and operate suitable instruments for the studies of different compounds of Zoology of this course and also of higher classes including research
		Ecology And Wildlife Management	П	CO1: Learners will learn about nature of human population, specific factors affecting its growth and itsimpact on the population of other life forms CO2: Students will grasp the concept of interdependence and interaction of physical, chemical andbiological factors in the environment. CO3: It will leads to better understanding about implications of loss of fauna on human being eruptingspur of desire for conservation of all fauna and flora CO4: Learner would be motivated to choose their career in the field of wildlife of conservation, Research, photography and ecotourism
		Nutrition,Public Health And Hygiene	II	CO1: Healthy dietary habits would be inculcated in the lifestyle of learners preventing risk of developinghealth hazards
				in younger generations due to faulty eating habits. CO2: Promoting optimum conservation of water, Encouragement for maintain personal hygiene. Optimum use of electronic gadgets, avoiding addiction, thus facilitating to achieve the goals ofhealthy young India in true sense. CO3: Learner will be able to promptly recognised tress related problems at initial stage and would be able to adopt related solution which would lead to psychological stronger mind-set, promoting promoting Positive attitude. CO4: Acquiring knowledge about cause symptoms and precautions about infectious diseases to helpstudents to prevent frequent sickness not only for them but also for their family members.
	S.Y.B.Sc	Fundamentals Of Genetics, Chromosomes Heredity And Nucleic Acids	III	CO1: Understand and apply the principles of inheritance, concept of multiple allele's linkage and crossing over CO2: Learner will understand importance of nucleic acid as a genetic materials CO3: Learner would comprehend and appreciate the regulation of gene expression CO4: Learners would understand the structure and types of chromosome, mechanism of sex

			determination CO5: Learners would be able to correlate the disorders link to a particular sex chromosomes.
	Animal Physiology	III	CO1: Learners should understand the increasing complexity of nutritional, excretory and osmoregulatory physiology in evolutionary hierarchy CO2: learner would be able to correlate the habit and habitat with nutritional, excretory and osmoregulatory structure in different classes of organism CO3: Learner would understand increasing complexity of respiratory, and Circulatory physiology in evolutionary hierarchy CO4: Learners would understand the process of control and coordination by nervous and endocrine regulation. CO5: Learners would be amazed by various locomotory structure found in the animal kingdom CO6: Learners would be acquainted with various reproductive strategies present in the animals
	Applied Zoology	Ш	CO1: Learners would gain insight into different types of animal's behaviours and their role in biological adaptation CO2: Learners would be sensitised to be feelings which are instrumental in social behaviour. CO3: learners should understand the general
	Origin And Evolution Of Life , Population Genetics ,Scientif Attitude, Methodology Scientific Writing And Ethics Inscientific Research	IV	epidemiological aspect of parasite that affect humans and takes simple preventive measures for the same CO4: Learner would be competent the lifecycle of specific parasite the symptoms of diseases and its treatments. CO5: Learner would gain knowledge of animals useful to mankind and means to make the most of it CO6: Learner would learn the modern technique in animal husbandry and peruse entrepreneurship as a career. CO1: Learner would gain insights into the origin of life CO2:Leraner would analyse and critically view the different theory of evolution CO3: Learner would understand the force that cause evolutionary changes in the natural population and mechanism of
			speciation's. CO4: The learner would develop quality such as critical thinking, skill of scientific communication and analysis and to understand the ethical aspects of Research.
	Cell Biology, Endomembrane System And Biomolecules	IV	CO1: Learners would acquire insights into the composition of the transport system adopted by the cell and organelle for its maintaince and composition of the cell CO2: Learners would appreciate the intricacy of endomembrane system CO3: Learners would understand the interlinking of endomembrane system for functioning of the cell. CO4: Learners would realise the importance of biomolecules and their clinical significance.
	Comparative Embryology Aspect Of Human Reproduction And Effects On Organism	IV	CO1: Learners understood and compare different types of eggs and sperms. CO2: Learners would be understand human reproductive physiology CO3: Learners would become familiar with advance in ART and related ethical issues. CO4: Learners would be sensitised about the adverse effect of pollution and measure to control it
T.Y.B.Sc	Taxonomy Of Invertebrates	V	CO1: Learners would be apprehended the basis of classification and modern classification up to class of the lower invertebrate animals CO2: Learners would be familiarise with classification put phylum Nematode along with their examples CO3: Learners would get an idea of higher

1			annum of invental mate animals life their
			groups of invertebrate animals life, their classification and their peculiar aspects. CO4: Learners would get an idea of general characteristics and detail l of invertebrate animal system
	Haematology And Immunology	V	CO1: Learners comphrended basic haematology and identified various component of haem ostatistic system CO2: Learners become familiar with the terminology used and diagnostic test performed in a pathological laboratories CO3: Learners acquainted diagnostic approach in haematological disorders CO4: Learners better equipped for further pathological course or working in a diagnostic laboratory CO5: Learners comprehended the types of immunity and the components of the immune system . CO6: The learners realised the significance role of immune system in giving resistance against disease.
	Histology, Toxicology, Patholog y And Biostatistics	V	CO1: Learners appreciated the well plan organization of tissues and cells in the organ system CO2: Learners developed broad understanding in different areas of toxicology CO3: Learners developed critical thinking and assist student in preparation for employment in pharmaceutical and related areas CO4: Learners become familiar with various medical terminology pertaining to pathological condition of the body cause due to disease CO5: Learners. able to collect, organised and analysed data using parametric and non-parametric tests and also setup hypothesis and verified the same limits of significance
	Anatomy And Developmental Biology	V	CO1: Learners understood importance of various types of epidermal and dermal derivatives along with their functions CO2: Learners understood the structure types and functions of human skeleton. CO3: Learners understood the long limb muscles its arrangement and their role in body movements
	Applied Components	V	CO1: Learners understood and learn about
			the use of sea safety, navigational equipments and oceanographic instruments CO2: Learners understood basic physical, chemical and biological oceanography CO3: Learners understood boat building techniques and design of engines used in mechanized boats CO4: Learners acquainted breeding techniques and skills for culture of major carps CO5: Learners understood breeding techniques, hatchery and management of finfish and shell fishes
	Taxonomy Of Vertebrates	VI	CO1: Learners got the idea of origins of chordates, its taxonomy up to the class with reference to phylogeny with reference to phylogeny and their special features CO2: Learners understood the characteristic feature and examples of class reptile aves and mammals CO3: Learners got idea of vertebrate animal life after studding one representative animal Shark
	Physiology And Tissue Culture	VI	CO1: Learners understood fundamental structure action and kinetics CO2: Learners appreciated the enzyme assay procedure and therapeutic applications of enzymes.

		response of the animals to environmental changes for their survival. CO4: Learners understood the types and secretion of endocrine glands and their functions CO5: Learners appreciated the significance of tissue culture as a tool in a specialised area of research and its application in various industries.
Genetics And Bioinformatics	VI	CO1: Learners understood an insights into the intricacies of chemicals and molecular processes that affect genetic materials. CO2: Learners appreciated the enzyme assay procedure and therapeutic applications of enzymes. CO3: Learners understood significance of molecular biology as a basis for the study of other areas of biology and biochemistry CO4: Learners understood related areas in relatively new field in genetic engineering and biotechnology. CO5: Learners acquainted the vast array of techniques used to manipulate genes which can be applied in numarous field like medicine research etc for human benefits.
Environmental Biology Zoopharmacognosy	VI	CO1: Learners understood the different factors affecting environment its impact and environment management law CO2: Learners understood various methods for wildlife conservation
		CO3: Learners understood knowledge of overcome the issues related to wildlife conservation. CO4: Learners acquainted how and why different animals species are distributed around the globe
Applied Components	VI	CO1: Learners understood deep sea and coastal fishes CO2: Learners understood commercial potential and know about the major landing centres of the fishes CO3: Learners understood basics of nutritional requirements at various developmental stages of fish and crustaceans CO4: Learners should oriented towards understanding causes, pathogenicity, prophylaxis and preventive measures of various fish diseases and physiological disorders CO5:: Learners understood fish by-products and value-added products CO6:: Learners understood good manufacturing practices while manufacturing the various products

Program Outcome

Program Outcome

Bachelor of Arts (BA):

- To make the learners aware about landmark historical events, political systems, geographical and social aspects of Regional, National and International level
- To impart linguistic skills and proficiency to the learners about the literatureancient, Regional, National and International level
- 3. To sensitize students to wards social climate and culture
- 4. To equip the learners with the skills of citizenship
- 5. To make the learners aware about Philosophical thoughts -Indian and Western

Bachelor of Commerce (BCOM):

- To impart knowledge about commercial and managerial aspects of business along with social and ethical issues
- Togiveaworkingknowledgeinrespectedofcostaccounting, managementaccounting ,financialaccountingauditingandtaxation
- To make the learners aware about various aspects of micro and macroeconomics
- Toacquaintthelearnersaboutbusinesslaw, computersystems, its applications and net work infrastructure
- To provide the basic knowledge about Indian Financial System and recent development in finance

Bachelor of Science (B.Sc.):

- B. Sc. Chemistry is Three years under graduate course which one can apply after completing 12th from science stream.
- Demonstrate, solve and understanding of major concept in all disciplines of chemistry.
- Solve problem and also think methodically, independently and draw a logical conclusion.
- To include the scientific temperament in the students and outside the scientific community.
- 5) Find out green route for chemical reaction for sustainable development.
- Enrolling in B.Sc degree program translate to making a significant investment in once professional carrier.
- Use modern techniques, decent equipment and chemistry software.

Program Specific Outcomes

Sr.	Department	Program Specific Outcomes
No.		
1	Economics	The Bachelor of Economics of BAE conomics degree is a Three years under graduated egree with a focus on qualitative and quantitative as pect of Economics. The course study includes Microeconomics, Macroeconomics, Indiane conomy, Growth and development, Environmental Economics, Industrial economics, Research Methodology. 2. Study of economics provides in sight into the operation domestic market for goods and services, financial market and the global economic system. It provides the quantitative and analytical skill that enable learners stounders tand various economic is suesclearly. It also teaches how to make well in formed decisions, how to go about making choices and creates.
		financialawareness.
		3. Economics is the great foundation for many careers.
		5. Economics state great out duties in out and a contract of the contract of t
2	Hindi	 व्यावहारिक भाषा के रूप में दिवितीयक भाषा हिंदी की उपयोगिता हिंदी की साहित्तिक विदाओंसे परिचित करवाते हुए साहित्य में रूचि निर्मित करना हिंदी काव्य और हिंदी गद्य में रूचि के साथ साहित्यावलोकन की समझ और लेखन में रूचि तिर्मित करना हिंदी में सुचना प्रद्यौगिकी , सोशल मिडिया जनसंचार माध्यम का परिचय करना हिंदी साहित्यिक इतिहास , साहित्य समीक्षा छंद एवं अलंकार ,भाषा विज्ञान ,हिंदी भाषा और व्याकरण का परिचय करना

4	Marathi English	१. मराठी भाषिक विद्यार्थि मराठी भाषेत पारंगत व्हावा यासाठी आवश्यक भाषा कौशल्याचा विकास होतो २. भाषेतील मूलभूत संकल्पना आणि भाषेचे उपयोजन याबद्दल विद्यार्थी सजग होतो ३. मराठी भाषेच्या वाटचालीत निर्माण झालेल्या साहित्य प्रकारांचा ,परंपरांचा आणि प्रवाहांचा परिचय होतो ४. जागतिकीकरणाच्या स्पर्धात्मक परिस्थितीत आपली भाषिक कौशल्ये समर्थपणे वापरण्यास सिद्ध होतो ५. लेखन व भाषान्तराची कौशल्ये विकसित करून मुद्रित आणि दृक श्राव्य माध्यमात प्रभावीपणे काम करू शकतो 1. Basic knowledge of English as Language. 2. Major knowledge of English Grammar. 4. Critical study of English Literary studies. 5. Relation between pleasure of literature and real life. 6. Gain Effective communication competence 7. Handle various style and registered of English in various personal and professional situation.
		8. Acquire Enhanced literary and cultural sensibility 9. Understand various genres of cultural texts 10.Gain enhanced soft skills for better employability
5	Geography	 Learners get hands - on training about basics of computers, and geospatial technology-GIS, GPS, Remote Sensing and soon. Develops research skills among the Learners.
		Develops understanding of man and environment relationship and changing nature.
		Sensitize learners about various economic, cultural, environmental, political issues.

6	Chemistry	The Bachelor of chemistry involve inorganic, organic, physical and analytical level expected from graduate in chemistry.
١,	Chemistry	The Bachelol of Chemistry involve molganic, organic, physical and analytical level expected from graduate in chemistry.
		To expose students on radical analysis in inorganic mixture, determination of surface tension and viscosity of liquid.
_	N. 7	1. The Dealer of weather stire Leveline. Colombia to consider a second colombia includes it At Contract Theories has Allerber
7	Mathematics	 The Bachelor of mathematics Involves Calculus in two parts namely calculus i calculus ii At first year. There is also Al gebra and linear Algebra respective for semester I and sem .II
		In first year students should be familiar with number system, sequences, limit, continuity and polynomials.
		Students should know derivative iot's application, linear equations matrices and linear transformations.
		linear transforms and matricesnction of several variable
		Determinant ,inner product spaces advance calculation
	<u> </u>	Rieman integration B and gama function, Group theory, differential equation.
8	Physics	Helps to understand the laws and rules that govern the physics world.
		2. Physics is very important element in chemist engineers and computer scientists as well as Biomedical sciences.
		3. To find or understands or to find unified set of laws governing matter, motion and energy at small subatomic distances, at human scales of everyday life and out to the largest distance
		3. A wide range of career opportunities.
		Acquire skills valuable to employers.
L		
9	Zoology	The Bachelor of Zoology involve inorganic, organic, physical and analytical level expected from graduate in Zoology.
		To expose students on radical analysis in inorganic mixture, determination of surface tension and viscosity of liquid.
10	ACCOUNTANCY	After completion of B. Com. Degree course, students will be able to finalize the annual accounts of a Sole Trader/Proprietor, a
	ACCOUNTANCY	Partnership Firm and a company. At the end of the B. Com Degree Course the students are all set with skills, knowledge, attitudes, social behaviour and they are eligible to work as an Accountant, Manager, Bank Manager, Government jobs, etc.
11	COMMERCE	At the end of the B. Com Degree Course the students are all set withskills, knowledge, attitudes, social behaviour. After completing this
		degree, they are eligible to work as an Accountant, Manager, Bank Manager, Professor, Teacher, Company Secretary, Government Jobs etc.
