#### Maintenance of water bodies and distribution system in the campus

The college has 01 open well, 04 Storage tanks and two pumps for water supply. Water from the open well is pumped to the over head two tanks of 2000Lts capacity and one tank of 3000Lts capacity. One 1000Lts capacity tank is used specially for RO water Filtration for drinking. There are two water pumps to draw water from well. The water from overhead tank is distributed to all taps across the campus. The maintenance of plumbing system is outsourced. Whenever the problems are identified immediate actions are taken for restrict wastage of water. Then plumbers are outsourced to fix the problem.

Malvan.
